PROFESSIONAL SUMMARY

Frontend Developer with **4+ years of experience** engineering scalable SaaS, enterprise web apps, mobile apps, and LLM-powered interfaces using **React.js, Next.js, TypeScript, and JavaScript (ES6+)**. Proven track record in optimizing performance (achieving **35%+ Core Web Vitals performance boost**), building modern micro-frontends & headless CMS architectures (Payload CMS), cross-platform mobile apps (React Native, Ionic React), and integrating RAG-driven AI conversational flows. Adept at rapid development with modern AI toolchains (Cursor, Windsurf, Claude, Copilot).

TECHNICAL SKILLS

Core Frontend & Frameworks:	React.js, Next.js (App Router/SSR/SSG), TypeScript, JavaScript (ES6+), React Native, Ionic React
AI & Generative AI Systems:	LLM APIs Integration, Retrieval-Augmented Generation (RAG), AI Chat Interfaces, Contextual Retrieval, Prompt Engineering
UI Architecture & Styling:	HTML5, CSS3/SCSS, Bootstrap, Tailwind CSS, Design Systems, Web Accessibility (WCAG 2.1 AA)
State, APIs & CMS:	RESTful APIs Integration, GraphQL, Payload CMS, Headless CMS Architecture, Dynamic Auth & State Management
Performance & SEO:	Core Web Vitals Optimization (35%+ gain), Lighthouse, FCP/LCP Reduction, Lazy Loading, Dynamic Sitemaps, Canonical URLs
Developer Tooling & Workflows:	Git, GitHub, Figma-to-Code, Vite, Cursor, Windsurf, MCP, Claude AI, GitHub Copilot, CI/CD

PROFESSIONAL EXPERIENCE

UI Developer / Frontend Developer — Biz4Group LLC

Jaipur, India | Aug 2022 – Present

- **UI Component Engineering:** Designed, developed, and deployed **50+ reusable, accessible (WCAG compliant)** UI components from Figma specs using React.js, Next.js, and TypeScript across multi-tenant SaaS applications.
- **AI Integration & LLM Interfaces:** Architected interactive AI chat widgets, prompt workflows, and RAG-driven knowledge assistants, cutting user support query resolution times by **40%**.
- **Cross-Platform Mobile Engineering:** Built unified cross-platform mobile app UI flows using React Native and Ionic React, ensuring zero-latency API synchronization and 100% design system parity between iOS and Android.
- **API Architecture & State Management:** Integrated complex RESTful APIs into dynamic frontends, establishing robust global state, automated form validations, loading skeletons, and graceful fallback error handling.
- **Performance & SEO Optimization:** Spearheaded Web Vitals enhancements; boosted PageSpeed and Lighthouse metrics by **35%** via code splitting, asset preloading, image optimization, and SSG/SSR dynamic routing.
- **AI-Assisted Engineering:** Leveraged advanced developer tooling (Cursor, Windsurf, MCP, Copilot, Claude) to accelerate unit testing, refactoring, and engineering sprint velocity by **25%**.

SELECTED AI & HIGH-PERFORMANCE PROJECTS

AI Knowledge Assistant & Conversational Bot — *React.js, TypeScript, AI APIs, RAG, SSE Streaming*

- Engineered end-to-end document-retrieval interface using RAG principles, featuring real-time document upload, automated chunking status visualizers, token streaming, and dynamic context-response rendering.

AI-Powered Recruitment & Automated Assessment Platform — *React.js, Next.js, TypeScript, Tailwind*

- Developed interactive candidate dashboards and AI interview management interfaces, seamless REST backend integrations, real-time candidate scorecards, and automated feedback generation tools.

Enterprise High-Performance Headless CMS Platform — *Next.js, Payload CMS, SEO Engine, Web Vitals*

- Modernized client web infrastructure using Next.js App Router and Payload CMS; automated dynamic sitemap generation, canonical URLs, and structured JSON-LD metadata for optimized SEO indexing.

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Computer Science / Science
MSJG College, Bharatpur | Graduated 2024

Industry Certifications
- **Generative AI with Large Language Models** – DeepLearning.AI / Coursera
- **Introduction to Software Engineering** – IBM / Coursera
