PUSHPENDRA SINGH

AI-First Frontend Developer | React.js, Next.js, TypeScript & React Native

Jaipur, Rajasthan, India | +91 9024297212 | pushpendrasinghbtp2002@gmail.com | linkedin.com/in/pushpendra-singh-47aba3221

PROFESSIONAL SUMMARY

AI-First Frontend Developer with 4+ years of experience architecting scalable SaaS web platforms, cross-platform mobile apps, and LLM-powered interfaces using React.js, Next.js (App Router/SSR/SSG), TypeScript, and React Native. Proven track record boosting Core Web Vitals and Lighthouse performance by 35%+, engineering headless CMS architectures (Payload CMS), and shipping RAG-based conversational AI and real-time voice/fraud detection UIs using modern AI toolchains (Cursor, Windsurf, Claude, MCP, Copilot).

TECHNICAL SKILLS

Frontend & Mobile:	React.js, Next.js (App Router, SSR, SSG), TypeScript, JavaScript (ES6+), React Native, Ionic React, HTML5, CSS3/SCSS, Tailwind CSS, Bootstrap
AI & Generative AI UI:	LLM API Integration, Retrieval-Augmented Generation (RAG), SSE Token Streaming, Conversational AI Interfaces, Prompt Engineering
Architecture, APIs & CMS:	RESTful APIs, GraphQL, Payload CMS, Headless CMS Architecture, Role-Based Auth, Global State Management, Design Systems, WCAG 2.1 AA
Performance, SEO & Tools:	Core Web Vitals (35%+ gain), Lighthouse, FCP/LCP Optimization, Dynamic Sitemaps, JSON-LD SEO, Git, GitHub, Vite, Cursor, Windsurf, Claude, MCP, CI/CD

PROFESSIONAL EXPERIENCE

UI Developer / Frontend Developer — Biz4Group LLC

Jaipur, India | Aug 2022 – Present

- **UI Systems & Web Engineering:** Architected and shipped 50+ reusable, WCAG 2.1 AA compliant components from Figma specs using React.js, Next.js, and TypeScript across multi-tenant SaaS and AI platforms.
- **AI & Cross-Platform Mobile Delivery:** Engineered RAG conversational interfaces, AI hiring dashboards, and cross-platform iOS/Android apps (React Native, Ionic React), reducing user support resolution time by 40% while maintaining 100% design parity.
- **API Architecture, SEO & Performance:** Integrated complex REST/GraphQL APIs with resilient state/error handling, boosting Core Web Vitals and Lighthouse scores by 35%+ via SSR/SSG, code splitting, and automated dynamic sitemaps.
- **AI-Accelerated Workflows:** Leveraged Cursor, Windsurf, MCP, Claude, and GitHub Copilot to accelerate unit testing, refactoring, and sprint delivery velocity by 25%.

SELECTED AI & HIGH-PERFORMANCE PROJECTS

Stratum9 & S9 InnerView — AI Human Performance & Hiring Ecosystem

Feb 2024 – Sep 2026

React.js, Next.js, TypeScript, React Native, Payload CMS | stratum-nine.com | s9innerview.com | iOS App

- Engineered production web (React.js, Next.js) and mobile (React Native) frontends across a 3-product ecosystem: S9 InnerView (AI job creation, resume screening, structured interviews, candidate dashboards), a 45-skill performance tracker, and a Payload CMS marketing site.

ScamGuarding — Real-Time AI Fraud Call Detection Web Portal & Android App

Jun 2025 – Present

React.js, React Native, TypeScript, Real-Time AI Alerts | scamguarding.com | Google Play App

- Built user-facing web portal and React Native Android app protecting 95,000+ users from UPI, KYC, and impersonation scams, implementing secure authentication flows, accessible high-contrast alert screens, and low-latency AI call-risk notifications.

Svermo — Enterprise Real Estate Operations AI Platform & Headless CMS

May 2026 – Jul 2026

Next.js (App Router), Payload CMS, TypeScript, Technical SEO | svermo.ai

- Architected and launched the end-to-end web platform for Svermo's multi-agent real estate AI suite (Leasing, Voice, Tenant, Valuation, Investment, and Deal AI) with Next.js and a custom no-code Payload CMS admin panel, dynamic sitemaps, and semantic SEO.

AI Document Chatbot — RAG Knowledge & Streaming Assistant

Oct 2026 – Present

React.js, TypeScript, RAG Architecture, SSE Token Streaming, Auth

- Developed a conversational RAG document assistant featuring admin document ingestion, real-time chunking/processing status visualizers, token-by-token SSE streaming responses with source context citations, persistent chat history, and role-based user authentication.

EDUCATION & CERTIFICATIONS

RSSM, Jaipur | Post Graduate – 2024 – Post Graduation Degree in Computer Science *(Undergraduate degree completed alongside professional frontend work.)*

Certifications: Generative AI with Large Language Models (DeepLearning.AI / Coursera) | Introduction to Software Engineering (IBM / Coursera)
